To whom it may concern:

For several months, Uday Singh has been assisting Joel Kupferman, of the New York Environmental Law and Justice Project, in surveying environmental contamination in lower Manhattan following the World Trade Center disaster. The nature of his work requires that he collect samples of dust from public spaces, including subway stations. Mr. Singh's research is an integral part of NYELJP's efforts to safeguard the health of public following an unprecedented environmental disaster. I wholeheartedly endorse this work of Mr. Singh and Mr. Kupferman as their work has been a critical part of my efforts to ensure downtown environmental quality for my constituents.

Sincerely,

JERROLD NADLER
Member of Congress
